Grand Executive

Grand Conference

The Grand Executive chair combines the elegance of the Grand Repos lounge chair, which was designed by Antonio Citterio for the Vitra Home Collection, with the functionality of a modern office chair. The dignified aura of the Grand Executive chair is complemented by a sleek aesthetic. Covered in high-quality leather, its softly padded upholstery provides supreme comfort. Decorative seams highlight the chair's handcrafted

details and delineate its volumetric structure. The FlowMotion mechanism can be adapted to the individual user to ensure synchronised comfort in every sitting position. The Grand Executive Highback model is equipped with an adjustable neck cushion.

The Grand Executive chair comes in different versions: Grand Executive Lowback is distinguished by its lower backrest and Grand Executive Conference offers a sophisticated solution for visitor and conference seating. Together with Grand Repos and Repos, they form a family of chairs that gives a unified look to offices and conference rooms as well as lobbies, waiting zones and reception areas.

Antonio Citterio

The architect and designer Antonio Citterio, who lives and works in Milan, has collaborated with Vitra since 1988. Together they have produced a series of office chairs and various office systems, as well as products for the Vitra Home Collection. The Citterio Collection is constantly being expanded.

1-3	Grand Executive	12	V-Foam - meltable PU upholstery foam	14-15	Vitra Product Warranty

Leather Heavy use, L20

The standard grade leather used by Vitra is a robust cowhide leather, dyed-through, pigmented and embossed with an even grain pattern. Since it is hard-wearing and easy to maintain, it can also be used in office environments.

Leather is available in 16 colours.

Material	Robust cowhide with a distinctive, even grain
Fastness to light	Type 6
Thickness	1,1-1,3 mm
Fastness to rubbing	Grade 4 dry and wet

Leather

Leather Premium F Medium use, L50

Leather Premium F is a relatively smooth cowhide leather with a flat grain and fine top sheen. It is dyed-through, lightly pigmented and processed with a tanning agent extracted from olive tree leaves (a waste product of the olive harvest).

Leather Premium F is available in 22 colours.

Material	Semi-aniline nappa leather with a very soft and supple feel, vegetable tanned
Fastness to light	Type 5
Thickness	1,1-1,3 mm
Fastness to rubbing	Grade 4 dry and wet

Leather Premium F

Surfaces and colours

Base

polished aluminium

Metal

Vitra most frequently uses aluminium and steel for metal components. Since 94% less energy is required to produce recycled aluminium in comparison to primary aluminium, Vitra utilises aluminium consisting of 95% recycled material whenever possible.

Depending on the product, metal surfaces are either powder-coated, chrome-plated, polished, galvanised, lacquered or blasted. A smooth or textured powder-coated finish provides colour and surface protection.
