- Suitable for a wide variety of private and public environments
- Qualified for contract use

CORNET BAR STOOL

DESIGN BY JONAS TRAMPEDACH

Jonas Trampedach's Cornet Bar Stool is a classic bar stool using an innovative steel tube technique inspired by bicycle racks. The round solid oak seat rests on a slender steel base, creating an interesting balance of proportions and profiles. The stools come in two different heights, with choice of wood finishes for the seat and chrome or powder coated colour options for the legs. The stools are suitable for bars, islands and worktops in a number of private and public settings.

Designer Jonas Trampedach was born in Denmark in 1974. He studied Design at Denmark's Design school in 2004, followed by a Master's degree in Design Products at the Royal College of Art in London in 2009. After moving back to Copenhagen in 2010, Jonas established his own studio, where he produces furniture and products in his own designs as well as working on collaborations with other design companies. For HAY, Jonas has developed the Cornet Bar Stool and the Type Chair, and Shim Coffee Table.

SUSTAINABILITY

HAY focuses on developing long-lasting products that minimise the environmental impact throughout their lifecycle. We prioritise carefully selecting materials, such as recycled content, FSC-certified wood, and water-based lacquer, while continuously increasing the number of eco-certified products. We adhere to strict regulatory requirements, and the majority of our products are tested to meet international standards for strength, durability, and safety.
