

Jobs Cabinet – Rodolfo Dordoni – 2014

Jobs esprime in sé e nel suo nome l'atto conclusivo di un percorso progettuale innovativo. Il nuovo sistema d'arredo direzionale nasce da un'attenta riflessione sull'evoluzione dei comportamenti in relazione alle nuove tecnologie e da un'accurata selezione dei materiali: pelle, legni lucidi ed opachi e strutture in metallo spazzolato arricchiscono in tono sobrio ed essenziale i differenti volumi e determinano nuove aree di lavoro.

CARATTERISTICHE TECNICHE

Jobs expresses in itself and in its name the final act of an innovative design path. The new managerial system has been created through careful reflection on the evolution of behaviours in relationship to new technologies and through the careful selection of materials. Leather, polished and matt woods and brushed metal structures give a sober and essential feel to the different volumes and determine new working areas.

TECHNICAL FEATURES

LOW CABINETS

Structure. Made of MDF in a matt oak veneer. The top features a contrasting polished finish.

Base. Made from brushed steel with a lead painted finish and a central linking crosspiece in a black, textured, scratch-resistant finish. Adjustable plastic feet.
